FORMAL TABLE SETTING GUIDE

CENTERPIECE IDEAS

- A quick and easy centerpiece can be created using fresh fruits or vegetables from the produce section. Think of items like:
 - A bowl of fresh citrus fruits (lemons, oranges, or limes)
 - Fresh herbs (rosemary, thyme, or basil) in small mason jars or vases
 - A wooden cutting board with a selection of cheeses, bread, and olives (for a rustic touch)
 - Alternative: If you want something more creative, use ingredients like dried beans, coffee beans, or pasta to fill a bowl or vase.
- You can enhance your table setting by placing the nameplate enclosed on next page in front of each setting, or for a more rustic, elegant touch, nestling it within a pinecone.

Tie a cinnamon stick (or two) around each cloth napkin using a piece of twine, ribbon, or even a strip of burlap.

NAMEPLATE INSTRUCTIONS

Use the attached nameplate on next page to enhance your table setting, or for a more rustic look. Cut along the dotted lines, write your guests' names in the rectangular fall leaf box, then fold and place one at each setting.
